

*Afterlives of Ancient Egypt with Kara Cooney*  
Episode #28: Geography and Environment  
Kara Cooney & Jordan Galczynski

In this episode Kara and Jordan tackle the topic of environment and geography. Inspired by the tumult our planet is facing with human-induced climate change, we look at how the Egyptians were impacted and influenced by their environment. What was the Egyptian landscape like in the past? How do we see this reflected in their ideology?
